

### ***Cmpt370 Meeting Agenda: Nov 22 /16***

- Documentation:
  - o What specifically should the documentation cover?
  - o Are java docs enough for the coding documentation?
- Pair Programming:
  - o Should we record time we spent on pair programming?
  - o Should we record what is accomplished in those times?
- Pushing art to Git
  - o Should I take pictures of what I'm drawing and push it to Git?
- Is there anything you would recommend changing from our Design Doc?

### ***Cmpt370 Meeting: Nov 22 /16 @ 4:12pm – 4:21pm***

- Documentation:
  - o Nov 27 – hand in code that somewhat works, docs inside the code/headers
  - o Dec 3 – documentation needs to be entirely finished
- Pair Programming:
  - o Record the time
  - o As much we care to say
- Pushing Art:
  - o Toss the pics on Git
- Feedback from Design Doc:
  - o nothing
- Other:
  - o Discussing possible ways of handling the hex grid and the current pixel position
  - o Possible use of libraries instead of just Swing
  - o Interpreter functions are partially complete
